Puts milk in easy reach of your smallest students

Serves more people in less time with interruption-free restocking

Saves labor with temperature-controlled overnight storage

Pays for itself through increased impulse purchases

The Signature of Quality®

Introducing the Innovation that Makes Milk Coolers Obsolete!

True to our 100 years of innovative heritage, Federal Industries has re-engineered the outmoded milk cooler – creating a ground-breaking air-screen merchandiser designed expressly to meet the challenges of K-12 Nutrition.

DURABLE, VERSATILE, RELIABLE, CUSTOMIZABLE.

- Reinforced stainless steel deck accommodates up to 12 milk crates
- Just 26" to top of first milk crate – easily within reach of your smallest students
- Uniform temperatures 24/7 – no frozen or ruptured cartons, no transferring cases to overnight storage
- Multiple adjustable shelves promote the purchase of cold foods and beverages
- Optional rear access for restocking – no interruption in service
- Built-in casters for convenient relocating
- Top-mount condenser with washable filter – no tools needed
- Inline or freestanding design for meal service or snack dispensing
- Add your logo, graphics or school colors for a cohesive presentation

When it's time to retire your old milk cooler, choose the new solution that combines convenience, efficiency and income-generating potential – the revolutionary Dairy Air-Screen from Federal Industries.
